Helpful Apps & Other online support options

UCLA Mindful - practice mindfulness meditation anywhere, anytime with the guidance of the UCLA Mindful Awareness Research Center. Available on the App Store & Google Play as 'UCLA Mindful'.

Headspace— FREE meditation and mindfulness services offered by [Headspace](#) for healthcare providers until the end of the year.

UCLA Wellness App – FREE and confidential wellness app. See details below.

UCLA Health

Free, confidential UCLA Wellness App is available to you!!

You are authorized access to download a free, confidential Wellness App that has been created for your personal use, called **Connectd**.

Tools on **Connectd** allow the user to:

- Complete brief screeners to see if you have symptoms of stress, burnout, anxiety, depression, trauma, or alcohol abuse.
- Receive immediate feedback about your risk level and evidence-based self-help advice to reduce your risk.
- Track scores over time to see if your risk is increasing or decreasing.
- Access brief tutorials and videos to learn how to reduce stress, improve mood, manage workplace challenges, live healthier, and improve your relationships.
- Quickly locate and contact helpful UCLA and other local resources.

If you are interested in downloading this App:

1. Go to your App store
2. Download **Connectd** (note spelling) to your iPhone/iOS (search “connectd behavioral” in the Apple store) or download **Connectd** (note spelling) to your Android.
3. Use activation/authorization code: **757westwood**

Notes

- Please do not share the activation code with anyone.
- Your answers will not be monitored. Please call 911 or reach out to a professional for urgent assistance, if needed.
- Please report any technical problems with the App to Brenda Bursch, PhD at bbursch@mednet.ucla.edu

Mindfulness & Meditation offered by the UCLA Mindful Awareness Research Center (MARC)

Mindful Awareness is the moment-by-moment process of actively and openly observing one's physical, mental and emotional experiences. Mindfulness has scientific support as a means to reduce stress, improve attention, boost the immune system, reduce emotional reactivity, and promote a general sense of health and well-being.

While the **FREE** drop-in meditation sessions offered by the [Mindful Awareness Research Center \(MARC\)](#) have been cancelled temporarily, you may stream Free guided meditations and [Podcasts](#) straight from the MARC website:

[Free Guided Meditations for Streaming](#) (between 3 and 19 minutes)

[Free podcasts](#)

[MARC Homepage](#) or call 310-206-7503

Depression and Support Resources

Depression is not the same as being unhappy or in a blue mood. Depressive disorder is a whole-body illness, involving the body, mood, and thoughts, and affects the way a person eats and sleeps, feels about himself or herself, and thinks about things. It

Checklist for depression

What's the difference between a bad case of the blues and the painful mental disorder known as depression? According to the experts, impaired functioning is usually a clear-cut indication of a major depression. View the [checklist of depression symptoms](#). If the list sounds familiar, you may want to speak with a counselor or a psychiatrist. [Visit our health library for more on the different types of depression and symptoms of depression.](#)

How can I get help?
